## Saving Small Amounts Adds Up

Saving even small amounts of money adds up over time. Take a look at the tables below. How much money can you save each month? How much would that add up to over time?

<b>If you save this amount each month with a .2 percent annual dividend:</b>	<b>In 1 year you will have saved:</b>	<b>In 2 years you will have saved:</b>	<b>In 3 years you will have saved:</b>
<b>\$5 / \$60</b>	\$60.12	\$120.36	\$180.72
<b>\$10 / \$120</b>	\$120.24	\$240.72	\$361.44
<b>\$15 / \$180</b>	\$180.36	\$361.08	\$542.16
<b>\$20 / \$240</b>	\$240.48	\$481.44	\$722.88

**Write your saving goals:**

Every month, I will save \$ \_\_\_\_\_ so I can \_\_\_\_\_
